"The collection of coins has not only become an infatuating and engrossing pursuit among thousands of persons of all ages and either sex, but out of it has grown up an extensive trade, furnishing the means of livelihood to numerous individuals in all our large cities. Prices have risen a hundred fold, in some cases almost incalculably; unreasonably; and speculation has been rife . . .

(from The American Journal of Numismatics, Vol. 1, No. 1, May, 1866.)

OUR TERMS OF SALE

1. All coins are guaranteed genuine. I will replace or issue a refund for any coin found not to be genuine. This is a lifetime guarantee. Over ten years of business I have never had to make good on this promise. But I make it anyway for your protection.

2. All attributions are guaranteed correct. Also a lifetime guarantee. I will issue a refund or if available provide a replacement for any coin found to be mis-attributed.

3. A full thirty day return privilege is allowed on all purchases. Returns may be made for any reason, or for no reason. My business depends on attracting repeat customers. It does neither one of us any good for you to keep a coin with which you are not completely satisfied. I am confident that the overall quality and value of the material I offer here is second to none. This does not mean that you might not order a coin that fails to satisfy your personal taste or desire. It is even possible for me to have missed a defect or to have been optimistic about the grade. It can happen. But it is not my intention. I encourage you to use the thirty days as an approval period. Feel free to show your purchases to other knowledgeable EAC members. Get a second opinion. All sales are final after the thirty day period, though I will certainly consider an extension upon reasonable request.

4. Approval service is also available to established clients. Seven days inspection is allowed on approval service at which time the coin must be returned or funds remitted. Approval sales are considered final after the seven days. Extensions are available upon request. We also accept VISA or MASTERCARD.

5. All orders are sent postpaid.

6. Strict ANA and EAC guidelines are followed in grading.

In addition to strict ANA and EAC guidelines I have introduced "value" or "net" grading into my descriptions. Sharpness or technical grade according to ANA standards is fairly easy to describe with consistency. However most old copper coins have acquired defects over time that detract from the overall desirability of the coin. I describe these defects and deduct from the technical grade based on their presence. As an example a coin might be described: "1805 S-267 VF20. Sharpness of VF30 with smooth brown surfaces, some light pin scratches where corrosion was removed at K1 reverse." Here is a coin VF30 by

ANA standards but with scratches at one o'clock on the reverse. Plainly the coin would be more desirable were the scratches not present. I describe the defects and deduct ten points from the overall grade. The first grade listed represents the net or value grade. Clearly this is an

art and elements of subjectivity are inevitable. Where there is no second grade listed it is my opinion that the net grade is the same as the sharpness grade. Perhaps not perfection but whatever marks present have been judged to be consistent with the technical grade of the coin and do not detract from the net grade. The intent is for you to have as close an idea as possible of the overall condition of the coin you may wish to purchase. No unpleasant surprises!

7. I attempt to give a rarity rating for each variety listed. These in large part reflect the current EAC ratings as compiled in Jack Robinson's Copper Quotes. I also offer opinions relative to condition census ratings, die state, and condition rarity. These change constantly as new coins are discovered and reported. I attempt to use the latest data or information available. Still these ratings cannot be 100% accurate and remain a matter of opinion only. Having said this I can also say with confidence that more information and more research is available on Early Copper than any other area of American Numismatics. Large cents have been actively collected and researched for more than one hundred years. One can therefore have a high degree of confidence in the general accuracy of current information. I urge all my clients to form the numismatic library necessary to allow them to make informed judgements and purchasing decisions. It is foolish to invest money in coins if you have not already invested in the books and other sources necessary to the full enjoyment of them.

8. I have yet to meet anyone who has bought coins merely as an investment who has realized a net return upon liquidation. I have, however, met numerous serious collectors, who having formed a discrimination collection over a period of years realized a substantial profit when their collection was ultimately sold. Most collectors find that the enjoyment, education, and friendships formed as a result of their collecting pursuits have been their greatest reward. It is much easier to lose money quickly than to make money quickly in rare coins. If you are not willing to undertake the educational process necessary to make well informed decisions regarding your collection you will almost certainly lose. Coin dealers are often more than willing to give investment advice. As my good friend Jack Robinson (whose collection did very well for him when it was sold in 1989) likes to say: THINK ABOUT IT! When you ask a cat which canary to buy remember his first concern may not be how well it sings. There are many opportunities to do well financially in rare coins. But as with any other medium of investment, success is the result of a combination of knowledge, good timing and the ability to wait for the right time to sell. Commit yourself to the process of becoming an educated collector and you stand a good chance of success.

INTRODUCTION

Welcome to my Annual Christmas catalog. As has become custom over the years you may take a 10% discount from the listed price on any item in this catalog.

There are innumerable new offerings including an original proof 1836 half cent, a nice group of early dates from an old collection including a VF 1798 S-152 overdate. Also, an outstanding group of 1796 Liberty cap cents. A rarely offered 1801 S-217 as well! How about a choice AU 1794 S-28 or a mint state S-71 or an EF 1807 S272 small 7 over 6? Numerous middle dates and condition census late dates include an EF 1820 N-4, the finest I have ever offered. There is a nice proof 1848 N-19 and the finest known 1851 N-37.

I wish all of you the very best during this holiday season. This catalog should reach you approximately December 7th. Feel free to call to confirm or receive further description of any item in the catalog. We continue to accept VISA and Mastercard.

By the first week of January most of you will have received our catalog of the March Wells Collection. This sale is held in association with Superior Galleries of Beverly Hills. If you would like to bid in this sale but are not currently receiving Superior's catalogs, please write requesting a copy.

By the way we just concluded our fifth annual Colonial Coin Collector's Convention. It was very successful with total sales of over \$220,000. Prices realized are listed in the back of this catalog.

Also, in the back with the books you well see I still have copies of the newly released Ron Manley Half Cent Book. You'll pay for it with the first 1804 C-6 Manley state 4.0 you find. Also, the new Quarterman edition of Newcombs Cents of 1816-57.

My next convention will be F.U.N. in Orlando January 6-9, 2000.. And of course, I will be attending the March Wells Collection Sale February 6-8, 2000 (call me if you want representation at this sale) followed by the Long Beach Convention February 10-13, 2000.

Again I wish all of you and your families the Happiest of Christmas. As I head into my 20th year as a professional numismatist I feel deeply how great a debt I owe you, my friends and customers. You are great! It is a wonderful hobby we are pursuing together.

This is far superior to the Dr. Montgomery coin sold at the NY ANA convention and is superior to all but one example I have ever seen. This "restrike" resulted from the mating of an 1811 C-2 obverse die with an 1802 C-2 reverse die. Breen reported a total of twelve examples struck, with only ten specimens known to have survived for today's generation of collectors. A very rare half cent. Only the second I have handled in close to twenty years of handling early copper.

1794 S-31 R1 AU55 \$21,500.00
Sharp lustrous tan to brown faded from mint color. Perfectly centered with a full sharp strike. There is slight rub on the highest points of the hair which removes this from strict mint state. 1794 S-57 R1 AU50 \$9250.00
Choice frosty steel brown with smooth, highly lustrous surfaces. There is just a bit of light friction on the highest points and non contact marks. In addition, there is a tiny flake out of the planchet, as minted, touching the right side of the 9 in the date. M-LDS with strike doubling on all 4 digits of the date and LIBE, the result of die bounce. A beautiful, well preserved example that's near the lower end of the condition census. Noyes photo #31709. 1801

EXTREMELY RARE 1801 S-217

1801 S-217 R6+ G4 \$9500.00
Sharpness VF20 (hair details suggest an even higher grade), but the surfaces are uniformly corroded and the roughness tends to blunt some of the details. On the bright side, that same roughness also hides about a half dozen light scratches on both sides. The date and legends are all readable. Mostly chocolate brown with steel toning on some highpoints and darker olive in a few protected areas. While this cent fits the definition of “scudzy”, the sharpness of the details and uniformity of the roughness are both positive factors that help improve its eye appeal. Only 17 examples are known or reliably reported today making this one of the rarest numbered varieties in the Sheldon series.

November 6th we held our fifth Colonial Coin Collector's Club Sale. It was a special night as much for the joi de vie and camaraderie of the club members as for the auction of the coins. The spirit of the club is almost mystical in its sense of community. I mean that there is really a spirit of kinship in C-4. The club members revere their common interest in the history and background and craft associated with colonial coinage. Their shared reverence has created a bond that transcends the trinkets, talismans, or artifacts that the coins in themselves are. In the context of the fraternity of collectors, the coins become more important for the bonds they form among collectors than they are as things to be owned or coveted.

Undoubtedly one of the charms of this club and others like it is that the most wealthy or respected person can come and be treated like an average Joe, and an average Joe can come and be treated like a prince. And the researchers; those who are adding to the knowledge of a series such as Vermonts or Fugios. These are not mere scribes. These are the elders! The Tony Carlottos, Ray Williamses, Rob Retzes and Bobby Martins are held as precious repositories of colonial wisdom.

EAC was very similar to this when I first joined in the early eighties. And it still retains much of that character. Despite the loss of several of our elders and princes. I first met Doug Smith some fifteen years ago, but my most vivid memory of him was at one of Jack Robinson's M & R auctions. I was working with Jack at the time and had somehow been cajoled into working the computer for the sale. After several false starts Steve Ellsworth chided me from the back of the room, "Looks like you're having a little problem up there!" Peeved I fired back, "One of us is having a problem!" and then with more good humor, "Possibly both of us!" Doug sitting in the front row found this mild witticism extremely amusing and repeated it several times during the evening. Of course, after the successful acquisition of another 1798 for his collection and more than one Rob Roy, Doug was in high spirits and found many things amusing and had amusing stories to tell. Doug passed away this last September and with him we lost one of our most charming, kind-spirited, and entertaining elders. Where will we find another like him? There will always be more coins; where will our hobby find another friend like C. Douglas Smith?

Perhaps what we find alluring about this hobby is that the coins themselves contain so much of beauty and history and even "like hints of mint red beneath autumn leaves toning" some echo or connection to the wisdom of our colonial elders. Perhaps like talismans they have the power to in some way create in us some of that wisdom. For now they have created and continue to create a spirit of community and fraternity among people who would otherwise remain strangers. Doug Smith, Jack Borchardt, Wayne Anderson, these are all people I will miss, but were it not for Numismatics would never have been privileged to know.

What follows as a prices realized list is just a list of the price of trinkets; trinkets that once they have found owners have the power to inform our lives, change our relationship to each other, and open up parts of the world that would otherwise remain closed
